

Spring Close
West Hanney, Oxfordshire

Welcome to Spring Close

Spring Close is a small development located in the idyllic Oxfordshire village of West Hanney.

The development is conveniently set back from the residential Church Street in the beautiful semi-rural village which was built in pre-Norman times. The villages of East and West Hanney are often referred to as 'The Hanneys' and have an active community.

The local amenities include a church, a primary school, a community run public house and a shop, numerous sports clubs and a variety of social events, so there are lots of opportunities to get involved in village life.

Surrounded by beautiful countryside with a picturesque brook running through the village, the area is rich with wildlife such as mallards and kingfishers. A lovely community woodland near to the development also enables you to spend time in nature.

Award winning developers

Hills Homes has established a strong reputation for building high quality homes on carefully selected sites. From bespoke country homes on the edge of sought after villages to major urban developments, Hills brings individual quality to each of its developments, creating homes which sit comfortably in their environment.

This unique characteristic has earned a number of Hills Homes' developments recognition at both regional and national industry awards. Hills Homes believes that its greatest strength lies in its staff – a talented and tight-knit team which prides itself on close attention to detail throughout the design, construction and after sales service. This process sees the inclusion of traditional building skills and craftsmanship in harmony with modern technology.

Combined with the use of the best quality materials and systems available, these contribute towards providing economical, sustainable and efficient modern living. Under the SAP/EPC methodology these homes achieve good to very good ratings for current performance in terms of energy efficiency and environmental impact.

It is this approach which has earned Hills Homes exceptionally high satisfaction ratings amongst those who matter most – its customers.

Hills Homes, a local company, cares passionately about the locations it operates in, and benefits the communities in these areas through contributions paid under planning obligation agreements.

Support for wider community and environmental projects is provided through The Hills Group working in partnership with recognised charities. This support has seen millions of pounds provided to protect local wildlife habitats, create more community spaces and provide better access to outdoor areas for everyone to enjoy.

His statue stands proudly in the town centre amongst a selection of high-street chains and charming independent restaurants and cafés. The town has an interesting selection of shops and supermarkets (including Waitrose and Sainsbury's), pubs, leisure facilities and businesses.

Site plan

Spring Close is a select development of seven new houses, a conversion and extension of an existing stone building, set to the rear and side of the original Dean's Farm house which is to be refurbished. Plot 1 and Plots 3 to 9 are of a classic contemporary style, having a combination of stone and weatherboard elevations with modern detailing. The interiors have been carefully thought out to provide a range of different layouts and sizes, providing a choice of both open plan and more traditional layouts.

The development layout is for general guidance and may be subject to change. It is not intended to indicate specific boundaries and is not necessarily to scale. Any landscaping shown is purely to create an impression.
